Resource Activity Get involved in Work Inspiration poster

Resource Includes Instructions only

Learning Outcome For use at schools to advertise Work Inspiration employer presentations. Please note: this is an optional resource

Outline Some suggestions for the information to include in the poster.

User Employers

Timing During the employer/school planning stage and before the Work Inspiration activity.

Procedure After the initial discussions between the Host Employer or Industry and the organising teacher and decisions have been made about the student year group, the format and date of the program etc, the next step is to promote the program to students.

Where it is decided for the Host Employer or Industry to make a presentation to a group of students during lunch time and attendance is voluntary, a poster promoting the presentation should be displayed in suitable locations around the school in accordance with the organising teacher and the school policy.

The poster should include:

- **Who:** Intended audience (eg, Year 10 Engineering students)
- **What:** Call to action – Come and find out all about it
- **Details:** Work Inspiration presentation by <<include name of employer>>
- **When:** Time of presentation
- **Where:** Location
- **Why:** Benefits of being involved.

For suggestions about the presentation see also Resource 1. Suggested framework for school presentation.
