

"New Land or Universe"

My universe would be far and wide,
A place where no one had to pay for a ride!
We'd live together in peace,
For the violence we would cease.
This universe will be free of fear.
For joy and happiness is something we
hold dear.

Each and everyone of us would have a
purpose,

Unlike today's world that is nothing
more than a circus.

Corruption and cruelty would be a
thing of the past

This peaceful universe is something
that will last.

You may laugh and think I live in a dream,
surely that's better than listening to
each other scream.
